

BlitzChiller

Lightning fast beverage chiller

Model HC03.A
Rapid Beverage Chiller

Chill 12-16oz aluminum cans in 2 or 4 minutes.

- 2 minutes to 38°F/3°C
- 4 minutes to 33°F/1°C

Chill 12-16oz glass/plastic bottles in 4 or 6 minutes

- 4 minutes to 41°F/5°C
- 6 minutes to 36°F/2°C

- Patented process works without altering any beverage property like carbonation, composition, or taste
- Easy to use. Just add ice, water, and plug in
- Automatic timer with easy to use chill settings of 2, 4, and 6 minutes
- Perfectly safe to chill carbonated beverages like beer and soda. Safe to open immediately, no fizzing over or exploding upon opening

Example chill times are based on a starting temperature of 77°F/25°C (room temperature).
