# COOPER COOLER™ Rapid Beverage Chiller

When You Need to Chill-On-Demand™

## EASY TO USE :

Step 1: Add Ice, Water and Plug In.

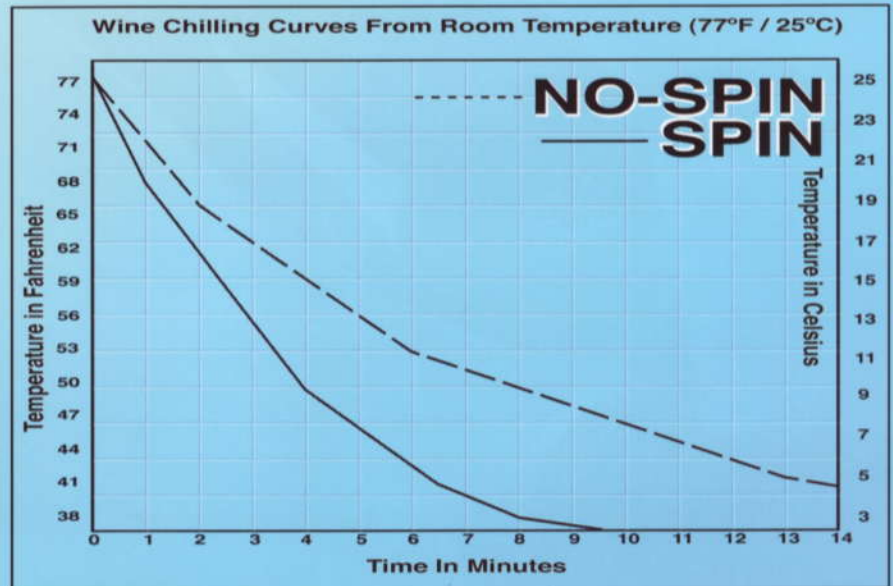

Step 2: Insert Your Beverage.

Step 3: Select Your Settings.

## WINE CHILLING:

- Store your wine warm and Chill-On-Demand™ to your desired drinking temperature in minutes.
- Chill wines to the high 60°F / 20°C in 1 minute or to the low 50°F / 11°C in 3.5 minutes.
- NO SPIN button to chill delicate wines.

## GREAT FOR:

- Parties or entertaining where there is a high demand for cold beverages.
- Unexpected guests and spontaneous situations.
- Chilling wine to your desired drinking temperature, not just refrigerator temperature which may be too cold.
- Free up refrigerator space by storing your beverages warm.

### AUTOMATIC TOUCH-PAD TIMER

Stops the chilling process when your beverage is ready.

**EXTRA** Button allows the user the option of chilling their beverage to "Ice Cold" 34°F / 1°C.

**NO SPIN** Button to chill delicate wines

**ADD ICE INDICATOR LIGHT** Tells the user when to add more ice.
