VINTURI WINE AERATORS

WINE MEETS TECHNOLOGY

Enjoy your wine from the very first sip!

How it works: Vinturi was the first venturi-driven, handheld wine aerator. Vinturi's patented technology is designed to infuse the perfect amount of oxygen to interact with wine as it is poured through the chamber. We tested different contact times and geometries to arrive at mixing the proper amount of air for the right amount of time. As the wine increases velocity, oxygen is drawn in through air intake channels.

RED WINE AERATOR

Vinturi's patented design draws in and mixes the proper amount of air for the right amount of time; allowing your wine to breathe instantly. When wine is poured in the Vinturi, its internal design creates an increase in the wine's velocity and a decrease in its pressure. This pressure difference draws in air, which is mixed with wine, for perfect aeration. The Vinturi Red Wine Aerator delivers a better bouquet, enhanced flavors and a smoother finish.

RED WINE AERATOR TOWER SET

The Red Wine Aerator Tower Set makes it easier than ever to savor the peak flavors and aromas of properly aerated red wine. An elegant, curved tower holds the Vinturi Red Wine Aerator at the ideal height to pour red wine through it and into the glass; creating a dramatic presentation with practical appeal. This 6-piece set includes the Red Wine Aerator, Tower Arm, Tower Base, No-Splash Grate, No-Drip Stand and Filter Screen that traps bits of cork and sediment.

WHITE WINE AERATOR

Before the Vinturi White Wine Aerator, one could not aerate white wines without letting them sit and warm to room temperature. The Vinturi White Wine Aerator provides a means of opening white wine's full aroma profile and tasting notes; while maintaining the perfect temperature for serving and consumption. White wine displays the same improvements with aeration as red wines.
