

corky
Made in Switzerland

A genuine Swiss
quality product
since 1965

10 advantages of corky

1. The first air-pressure cork extractor
2. Simply and ideally built to uncork bottles easily and safely
3. The first and only cork extractor with its pin at a right angle with respect to the pump body
4. Maximum air quantity per pump movement, a few movements are sufficient
5. Cork extraction is controllable
6. Lasting success through sales in more than 80 countries worldwide
7. Available in several colour combinations
8. With company logo or publicity imprint: an efficient company gift*
9. Ideal and appreciated household or gift item
10. Swiss quality product with one year factory warranty

Directions for use

Remove all foils and bottle tops from the bottleneck. Also remove the protective cap from the corky pin.

1. Drive the corky pin through the centre of the cork all the way. if possible, push the cork down a few mm. For extra care, wrap a towel around the bottleneck.

2. Hold the corky and the bottle firmly and pump several times.

3. Control the rise of the cork with the thumb.
